## Getting Started

---

Subaru Outback ,Legacy 2020 Learn Keys (Smart only)

Function can be used for learn/erase Keys and ELV

Operation work only on Car by CAN. For now not possible to use it by OBD

Operation must be done by connection as on pictures as in next chapters .

## System requirements

1. UHDS (serial number must be SN 5000....
2. Activation SR0003

## Getting help

Available function:

- Identification Module
- Learn keys
- Erase keys
- Learn ELV
- Reset Module

### 1. Learn Keys

This function works only if we have one or more working key and we want to add more keys.  
Key what we want to learn must be new or renew

### 2. Erase keys

This function works only if we have one or more working key and we want to add more keys.

### 3. Learn ELV

This function works only if we have one or more working key and we want to add more keys.

### 4. Reset module

This function is usebale when we have lost all keys.

In this case we have to reset first module , it take about 15 min.

After that we cal learn Key(s)

Key what we want to learn must be new or renew

## Connection By CAN

Blue wire from the car we connect to PIN 14 UHDS OBD connector (CAN L)  
Red wire from the car we connect to PIN 6 UHDS OBD connector (CAN H)

## Key

KEY -TEXAS AES SMART
